General Information

- Always use lowercase - or match the case.
- Never use spaces in directory/folder names or filenames.
- Spaces within the content of HTML don't matter, but indent for readability.

Basic Document Structure

```
<!doctype html>
<html lang="en">

<head>
<title>Your Title</title>
<meta charset="utf-8">
</head>

<body>
<!-- This is a comment -->
<!-- All page content should go here, within the body of the document -->
</body>

</html>
```

Basic Document Structure with Some Semantic Elements

```
<!doctype html>
<html lang="en">

<head>
<title>Your Title</title>
<meta charset="utf-8">
</head>

<body>
<!-- This is a comment -->
<!-- All page content should go here, within the body of the document -->
<header> </header>
<section> </section>
<footer> </footer>
</body>

</html>
```
