Assignment: Chapter 4
Professor: Steve Suehring
Course: CNMT 210
Points: 10 points
Due Date: At the end of class 9/24/2015

This exercise will allow you to work with styles in an external style sheet file. In the main/root Halloween web site folder, create a styles folder. You will place your style sheet files into this folder. Add to the existing Halloween Store assignment/web site the following components:

Specifications

- In the styles folder, create an external style sheet for the home page named main.css. This style sheet should include the CSS required to use the HTML5 structural tags in older browsers. (Don't forget the script to bring include the shiv file. Make sure you link the main.css style sheet file to your web page.)

- Set the default font for the document to a sans-serif font.

- Adjust the font sizes for all of the headings. *(h1 = 250%, h2 = 125%, h3 = 110%)* In addition, format the first letter of the first heading in the main section so it's larger than the other letters in the heading. *(250% - use one of the pseudo-class selectors on page 137)*

- In the header, float the image to the left and indent both headings. In addition, change the color of the first heading to orange, italicize it, and add a black shadow.

- Format the links so they're displayed in boldfaced orange whether or not they've been visited. If a link has the focus or the mouse is hovering over it, though, it should be displayed in green.

- Format the list to increase the space between the list items *(1.5em).*

- Reduce the font size for the footer and center it. *(90%)*

Do not submit your work. During your designated lab time, demonstrate your completed assignment to me after validating with the W3C. Note that you may receive a warning to the effect that you should "consider using the h1 element as a top-level heading only". This warning is ok for now.

Note: Please do your own work. If you don't understand this material now, you will have bigger problems later.

The Halloween Store

For the little Goblin in all of us!

Welcome to my site. Please come in and stay awhile.

I started this web site because Halloween has always been my favorite holiday. But during the last year, I started selling some of my favorite Halloween products, and they've become quite a hit.

If you click on the Personal link, you can browse my favorite Halloween pictures, stories, and films. And if you join my email list, I will keep you up-to-date on all things Halloween.

Product categories

- **Props**
- **Costumes**
- **Special Effects**
- **Masks**

My guarantee

If you aren't completely satisfied with everything you buy from my site, you can return it for a full refund. **No questions asked!**
